

GRAIN CROP PROSPECTS.

Winter Wheat Badly Damaged Throughout Illinois.

SPRINGFIELD, Ill., April 10.—The late reports to the Illinois Department of Agriculture leave no room for doubting that the growing crop has been severely damaged by the protracted cold dry weather in March. In some localities the reports assert that the wheat was damaged in January when the ground was bare of snow and the plant was exposed to the extreme low temperature that prevailed during that period. The tables published to-day show that in April the condition of winter wheat in Illinois has not been more unfavorable for years than this season. The tables have been compiled from the reports of nearly 600 experienced correspondents of the Illinois Department of Agriculture, who are so distributed throughout the State as to enable them to examine the condition of growing crops in each locality. The wheat area of the State during the past ten years has ranged from 2,637,554 acres, which was returned in 1874, to 3,703,613 bushels. The area seeded to winter wheat last fall in this State was 2,317,291 acres, a decrease of 405,472 acres as compared with the preceding year. The season is backward compared with the average years, and the damage to wheat by winter killing cannot be definitely determined until the plant has had some warm rains and growing weather. In some of the southern counties the extent of the wheat that has been winter killed can be determined with some degree of accuracy, and not in a few instances less than half of the area is reported winter killed. The average condition of the growing crop, April 1, is estimated to be about 52 per cent. of an average crop.

Wheat in Missouri in an Unpromising Condition—Cattle Loss During the Winter.

St. Louis, April 10.—The crop report of J. W. Sanborn, Secretary of the Missouri State Board of Agriculture, says: "The present outlook for wheat is reported as quite unpromising and at 77 per cent, yet the latest returns indicate improving prospects. The decline in acreage was reported to this office last fall to be 10 per cent. less than the average. This is an underestimate of the actual decrease, but we will use this basis until inquiry in next month's circulars. This gives an average of 2,167,266. A decline in the prospects of 20 per cent. leaves the probable yield 944 bushels, or a total yield of 19,892,874 bushels. Early sown wheat is reported as looking better than late sown, while the prospects at present are very unpromising. Very favorable conditions may improve them, but this change will have to come soon to prevent the plowing up of much ground now in wheat. The growth in farmers' hands on April 1 was 35.5 per cent. or 3,808,470 bushels. The loss in wheat reported in elevators outside of great cities. Present condition of wheat is 92 per cent. Corn on hand April 1, 27.9 per cent., or 60,457,709 bushels. Corn raised in the State that is consumed in the State, 55.5 per cent. Loss of cattle by death, 3.8 per cent., or 699,772, or a money loss of \$2,847,030. Swine on hand, compared with 1884, 9.5 per cent. The loss of stock of all kinds for the State for the past winter is estimated to have been over \$4,000,000, and it is believed that \$3,000,000 of this would have been saved under proper management. Feathers are killed according to reports and small fruits injured."

Madison Politics and the Postoffice. Special to the Sentinel.

MADISON, Ind., April 10.—Politics, which have been almost dead, are being revived; oil is being poured on the smoldering embers and soon everything will be ablaze and awaken the politicians to the call, for next month will be held a city election. The Democracy will hold their primary convention on the 20th. So far it seems Wm. H. Rogers will have no opposition for the nomination of City Treasurer, although it was thought at one time that Al C. Pogue would make the race, but he has contented himself with being the nominee for Water Works Trustee. John Andy Zach is the only Democrat who has announced himself for City Clerk, and in all probability he will be nominated unanimously. Marshal Calvin Clisco, who has held the office for several years, is again in the field opposed by Martin Gavin, a young man of Irish descent. The Second Ward, which is the stronghold of the Democracy, has been represented in Council last year by J. R. Bartram, a free and fearless Democrat, who always voted in Council according to the dictates of his own conscience and for the interest of the taxpayers. He should be renominated. William Bersch, Jr., a young man of good character, also wants the nomination, and it is said a "dark horse" is now lying in ambush ready to jump out at the last moment and try and get the nomination. The Republicans have as yet made no announcements, except John G. Moore, the present City Clerk, who is a candidate again for renomination, and will perhaps get it unanimously. They have set no day yet for their convention, and while the attention is being turned toward the city election not much is being said regarding the Postmastership, yet it is evident a great deal of quiet work is being done. The present aspirants are M. A. Barnett, of the Herald; Captain John Kirk, who has represented the First Ward in the Council for over a quarter of a century; Captain Charles David, commander of the steam City of Madison, and Mr. Rolia Doolittle, who served under Buchanan. Colonel James H. Woolford, Secretary of the Madison Insurance Company, is a candidate for State Bank Examiner. He is a very competent man for the position. He was a delegate to the Chicago Convention and attended the inauguration. We were told the other day that it was all fixed—Colonel Woolford would be Bank Examiner and M. A. Barnett Postmaster, but that is all talk. We don't think anyone has any positive assurance yet of any position, therefore we patiently await further developments.

A High Average Shown by the Report for Michigan.

LANSING, Mich., April 10.—For the April crops report the Secretary of State has received reports from 855 correspondents representing 645 townships. At the beginning of the winter wheat was in a very satisfactory condition; from about the middle of January until April 1, the ground was well covered with snow and very little, if any, wheat will be plowed up because of being winter killed or otherwise destroyed. The reports of correspondents mailed to the Department April 1, show the condition of wheat in the southern four tiers of counties was 10.3 per cent. and in the northern counties 10.2 per cent. of the condition one year ago. At the time the reports were made

probably no field in the State was entirely bare of snow. Reported crops the snow melted off and received April 7, 8 and 9, show 10.3 per cent. in the southern part of the State, compared with an average crop. The present acreage as estimated in November is 1,454,000, or about 5 per cent. less than was harvested in 1884.

Reynolds Items. Special to the Sentinel.

SPRINGFIELD, Ind., April 10.—The City Council last night employed Tom Faulkner and Patrick Jordan to act as policemen, at a salary of \$40 a month each. It is to be hoped the people's money will be spent to a good purpose.

Our orchardists and gardeners are of the opinion that the prospect for an abundant strawberry crop is most promising. Joe Hartman, a noted "crook," passed through here last night in charge of officers, en route for St. Joseph, Mo., where he is wanted for house-burning. Notwithstanding the cool, backward spring, farmers are very busy preparing for sowing, corn-planting, etc. "Peabody" Patterson, who has just completed a one-year term in the Southern Prison for the crime of burglary and robbery committed while drunk, has arrived at his home at Medora. He says his experience has been a bad one, and declares the flowing bowl shall never again touch his lips. A good resolution, "Peabody."

A Blood-Curdling Story. ST. LOUIS, April 10.—A story comes from Nemoqui, Ill., eight or ten miles north of here on the Wabash Railroad, that a negro calling himself Wiggins went to the house of Robert Williams, also colored, a small farmer living on the Emmert estate, on Wednesday night and asked for lodgings. He was permitted to remain, and amidst the family by telling funny stories until about midnight, when he suddenly rose and, with drawn revolver, demanded money. Williams produced \$30. Wiggins demanded more, and when Williams replied that it was all he had Wiggins shot him twice, inflicting mortal wounds. He then shot Williams' little boy and fired two shots at Mrs. Williams, but she escaped unhurt by running from the house. Wiggins fled, and at last accounts has not been captured.

Death of Kate F. Masley.

FORT PLAIN, N. Y., April 10.—Kate F. Masley died yesterday. She had been lying in a comatose condition for several days, otherwise there was no change from her general condition. Death has been expected at any time, but she gave no indication of it until the last moment. She had kept up her courage from mere will power in the hope of recovery. There is no doubt that from the 11th day of May, 1884, till the day before Thanksgiving last, she did not eat anything. Upon that day she experienced a peculiar sensation. Like the breaking of a something in her stomach, and since then she has been able to take a little nourishment in the shape of wine of whey. She was very much emaciated, and weighed scarcely twenty-five pounds.

Disruptive Flames.

MARION, Ind., April 9.—To-day about 11 o'clock the two-story frame dwelling house of F. and C. Martin on Adams street, between Ninth and Tenth streets, was partially destroyed by fire. Loss about \$400; fully insured in the Hartford. The building was occupied by tenants. Defective fire was the cause. The dwelling of William Hogan, near by, was considerably damaged by the same fire. Fully insured in the Springfield F. and M.

At 6:30 o'clock this evening the wood-house of C. D. Bradford was destroyed by fire and came near burning his dwelling.

Two Persons Killed by the Breaking of an Iron Bridge.

CONNELLSVILLE, Pa., April 10.—Last night the iron bridge over Indian Creek, eight miles east of here, on the Baltimore and Ohio Railroad, broke down, precipitating a coke train of seventeen cars into the water, twenty-five feet below. The engine and seventeen cars were completely demolished, and two brothers, H. H. and Benjamin Faller, respectively conductor and brakeman, were killed. The accident is believed to have been caused by the high water washing away one of the abutments.

Failures During the Week.

NEW YORK, April 10.—The business failures occurring throughout the country during the last seven days, as reported to R. G. Dun & Co., number for the United States 189, and Canada, twenty three; or a total of 212, as compared with a total of 230 last week and 277 the week previous to the last, showing a steady decrease. Failures are lessening in all sections of the country, except the South. In New York City the assignments are few and unimportant.

Suicide—The Pinkerton Victim.

CHICAGO, April 10.—Edward Lambert, the young man who murdered his mother-in-law, attempted to kill his wife and then shot himself, died this morning. The employee at McCormick's Reaper Factory, shot by one of Pinkerton's detectives, yesterday, died this morning.

Governor Oglesby Investigating—Illinois Legislature.

SPRINGFIELD, Ill., April 10.—Governor Oglesby left here last evening to visit the scenes of the strike at Joliet. In the Joint Assembly one vote was cast and the Assembly adjourned.

The Truck System Doomed.

COLUMBUS, O., April 10.—The Columbus Coal Company has posted notices at all its mines in the Hooking Valley that it will issue no more orders for merchandise, but will pay its employees in cash every Tuesday.

RAILWAY NEWS.

The excursion season is nearly upon us.

An official of the Vandallia says that there are now five electric lights in operation in the Vandallia yards at Terre Haute.

Superintendent of Motive Power George H. Perceot, of the Vandallia, says that 602 men are employed in his department.

Fast freight line agents continue to pursue the even tenor of their ways, although the railway journals are making as bitter a fight against them as ever.

There is talk of building a connecting line between Worthington, on the T. H. and S. E., and Washington, on the Straight Line. It seems to be definitely settled that this piece of road is to be built this summer. A

new mine has been opened on the South-eastern, and when in operation about ten car loads of coal per day will be turned out. Mr. Mackey is highly elated over the prospects of the South-eastern.

President M. E. Ingalls, of the Cincinnati, Indianapolis, St. Louis and Chicago Road, is of the opinion that the crop yield will be very heavy along the line of the Big Four this year.

Mr. N. K. Elliot, Master of Transportation of the Vandallia, has issued an order to engineers of passenger trains Nos. 2 and 5, the limited, that the rate of speed through Brazil must not exceed five miles per hour.

"I would almost as soon throw a pile of dirt in my engine as slack coal," said an old engineer to a reporter yesterday. "An engine in which slack is used makes miserable time and keeps a fireman busy when he should be ringing the bell. If only for economy's sake, a railroad should use good hard coal. It is a good deal cheaper than slack in the long run. There was a time when nearly all of the Indianapolis roads used this miserable stuff, but the greater portion of them now burn solid coal."

COURT-HOUSE LOCALS.

Suits Dismissed—New Trials Refused—Probate Matters—The County Board.

Judge Howe yesterday dismissed eighteen cases for want of prosecution. The divorce suit of Mary A. Langston vs. Leander Langston has been dismissed. The will of Daniel Egan, deceased, has been probated. The property is left to his legal heirs. Father O'Donoghue yesterday gave \$8,800 bonds as executor of the will of Michael Carr, deceased. Samuel Taylor and M. V. McGilliard have qualified as executors of the will of Charles Taylor, deceased. Bond \$9,500.

The suit of Charles P. Schrader vs. the Eagle Machine Works, on the apprenticeship contract, was dismissed yesterday.

The County Board yesterday allowed bills to the amount of \$882.43. The morning was occupied in the examination of bridges.

John T. Stanton and George Harness have petitioned in the Circuit Court for release from the official bond of Constable Blake.

The divorce suit of John R. Simpson vs. Minnie M. Simpson was dismissed in Room 3 yesterday, the plaintiff stating that he was in error in filing the complaint.

The County Board yesterday allowed \$1,375 to the Indianapolis Bridge Company, part payment on the bridges over Little Eagle Creek on the Hardin Free Gravel Road.

Building permits—Ritzinger's Bank, \$2,500; remodeling; A. Buschman, \$1,400 frame, Central avenue, between Ninth and Tenth streets; R. C. Newby, \$1,000 frame, 37 College avenue.

The County Board is arranging to take up the \$400,000 bonds due June 1, and to effect a loan of that amount. The present bonds have been drawing 7 per cent., and the new loan a saving of 3 per cent. in the new loan.

Judge Howe yesterday overruled the motion for a new trial in the case of Frank M. Wright vs. the city, for damages. In this suit the plaintiff recovered a verdict for \$2,700. The case will be appealed to the Supreme Court.

Edwin Ryan's suit against the Street Car Company for \$1,000 damages is on trial by jury in Room 3. Plaintiff sues for having been put off at the transfer car after having paid his fare. The defense is that while his fare was requested he was not put off.

A new trial was refused Francis W. Pigg on his motion in the recent suit against Catharine W. Pigg and John T. Woodard. The case was tried recently before a jury in Room 2, and special findings were returned. One of which was to the effect that plaintiff had made a bona fide sale of the property in question to Sarah Catharine Pigg.

A former Poor-house pauper yesterday filed his account with the County Board for \$4.75, part of which was for a shirt which was burned up because of his filth. He was furnished with a new shirt, but refused to give credit for it, and said if the board did not pay the bill he intended going to President Cleveland about it.

Ernestina Rosenberg has filed for divorce from Andreas Rosenberg, alleging abandonment in August, 1882, and failure to provide. They were married in July, plaintiff having filed a paternity suit against him, and the marriage being a compromise of the matter. The complaint charges that on the day after the birth of the child the marriage took place, the abandonment followed about eighteen days following the marriage.

The Watertown Steam Engine Company has filed suit against the Northwestern Manufacturing and Car Company of Minnesota to collect a note for \$394. Complaint is in two paragraphs, and demand is for each for \$1,000. Similar complaints by the same firm against the same defendant were filed, one on an open account for \$453.42 and demand of \$1,000, and the other on note for \$700 with \$1,000 demand. Affidavits in attachment and garnishment are also filed and summons issued to the Sheriffs of ten counties in the State.

To Be Installed.

The installation of Rev. M. L. Haines, pastor-elect of the First Presbyterian Church, will take place Sunday evening at 7:30 o'clock. Rev. J. A. Rondthaler will preach the sermon; Rev. Dr. Tuttle, of Wabash College, will give the charge to the pastor, and Rev. Dr. Hay the charge to the people.

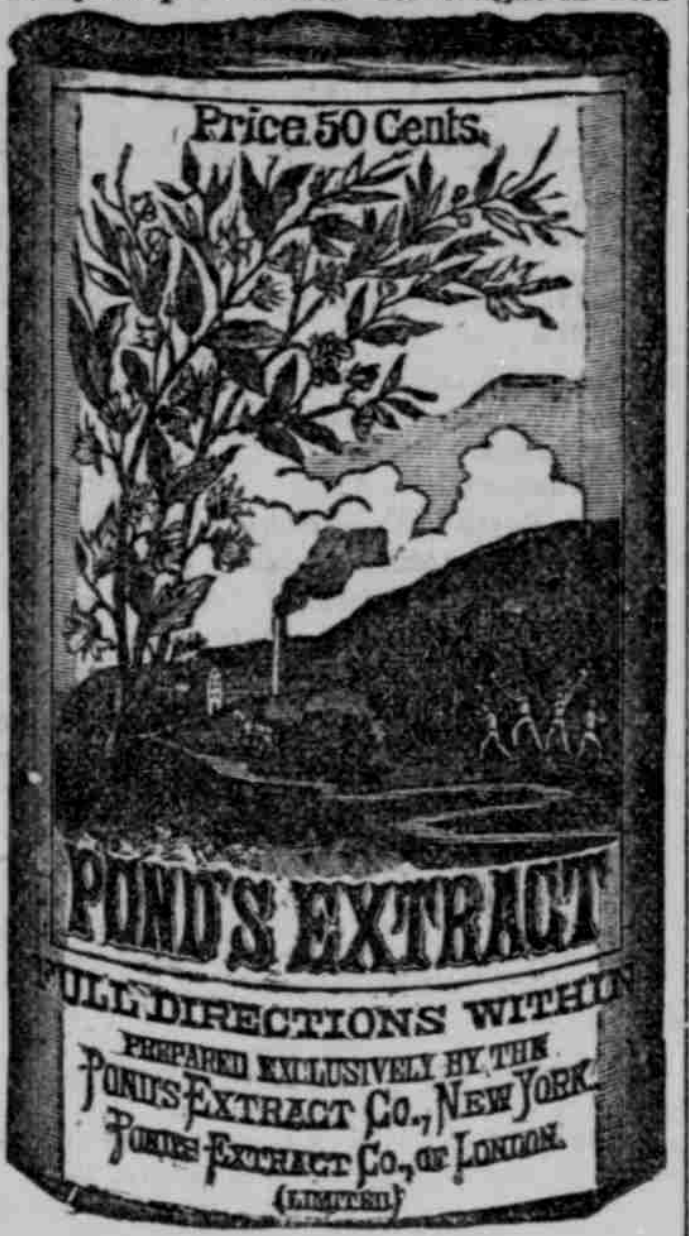

"When headache joins neuralgia, then comes the tug of war." A wise General knows very well how to marshal his forces. His first, last and best charge is made with a bottle of Salvation Oil, and the doughty loss lie cringing in the dust.

The following will give an idea of some of the illegal voting done in Chicago by Republicans at the election the other day: "I guess there was about twenty of us voted in all," said an eminent inebriate standing near by. "I had to make affidavit before I could vote. If I had been a Democrat it would have been all right without an affidavit."

"Some Democratic paper will get hold of this, and the Democrats will raise h—l with us if this election is brought to a contest," said another inmate of the house who came in at that moment. Of course there is nothing in it, but they will raise h—l, especially if the Republicans commence to investigate the County Hospital, or other buildings. I would not have sworn I was a voter if I had understood the clause about infirmaries as the Judge construed it. As he read it, inmates of county poor houses, insane asylums, hospitals, infirmaries, etc., are eligible. I did not know what he meant by etc."

The combination, proportion and process in preparing Hood's Sarsaparilla are peculiar to this medicine, and unknown to others.

THIS IS THE GENUINE! SOLD ONLY IN BOTTLES WITH RUBB WHISKERS. SEE THAT STRIP OVER COKE IS UNBROKEN. Our trade-mark around every bottle. In stock! Every Drop is Worth Its Weight in Gold.

It cures and cures all kinds of inflammation, GONORRHOEA, COLIC, DIARRHOEA, RHEUMATISM, NEURALGIA, has cured more cases than anything ever prescribed. DYPHTERIA, SORE THROAT; use it promptly, delay is dangerous. GILLES, BLEEDING OR ITCHING, GLEETS, OLD OR NEW WOUNDS, BRUISES, BURNS, TOOTHACHE, RABBIT BITE, SORE EYES, SCALDS, SPRAINS, the greatest known remedy. Controls REMORSE, FEMALE COMPLAINTS, BLEEDING Nose, Mouth, Stomach, Lungs, or from any cause, stopped as by a charm. It is called the WONDER OF HEALING. Used EXTERNALLY AND INTERNALLY. We have an abundance of testimonials. Send for our book (Mailed Free). It will tell you all about it. IT IS UNLAWFUL TO USE ANY PREPARATION EXCEPT THE GENUINE WITH OUR DIRECTIONS. PRICE 50c. HOOD'S EXTRACT CO., 76 5th Ave. New York.

DR. DAVID KENNEDY'S FAVORITE REMEDY. For the Cure of Kidney and Liver Complaints, Rheumatism, and all Disorders arising from an impure state of the BLOOD. To women who suffer from any of the above, Dr. Kennedy's Favorite Remedy is the best. All Druggists. One Dollar a bottle, or address Dr. David Kennedy, Rondout, N. Y.

Eczema or Salt Rheum. Another Clear and Positive Recovery—An Elderly Lady's Letter.

Among the numerous letters received by Dr. Kennedy testifying to notable cures, the following will be found of interest to our readers, who may accept our assurance of its perfect authenticity and truthfulness.

WORCESTER, Mass., March 23, 1884. Dr. D. Kennedy, Rondout, N. Y.: DEAR SIR—Until recently I have been for three years a sufferer from Salt Rheum. It followed upon an attack of Erysipelas, for which I was for a long time under medical treatment. I placed myself again in the hands of the physicians who did not, I have no doubt, all that could be done. One thing is certain, however, I was none the better for all the medicine they gave me. The painful and ugly disease made continual progress, until I began to fear I should never get rid of it.

By means of one of those accidents that often result in so much blessing I had my attention called to your FAVORITE REMEDY, which I was told would surely do me good. I used it, and within a much shorter time than I would have believed possible I received a permanent cure. I am now perfectly free from Salt Rheum. What a comfort this is, and how it places your wonderful medicine in my opinion, you may guess at, but never know, keep it now constantly in the house as a family medicine. Yours truly, MRS. DINAH PHAIR.

Mrs. Phair sometime since went on a visit to Kenner, found a case of Salt Rheum, could not get FAVORITE REMEDY, sent to New York City, and cured the case.

For all diseases of the Blood, Liver, Kidneys, Bladder and Digestive Organs, Dr. David Kennedy's FAVORITE REMEDY, Rondout, N. Y.

BALL'S HEALTH PRESERVING CORSETS. THE ONLY CORSET made that can be returned by its purchaser after three wears if not found PERFECTLY SATISFACTORY. Made in a variety of styles and prices. Sold by first-class dealers everywhere. Beware of worthless imitations. None genuine unless it has Ball's name on the box. CHICAGO CORSET CO., Chicago, Ill.

GOLD MEDAL, PARIS, 1878. GERMAN Sweet Chocolate.

The most popular sweet Chocolate in the market. It is not only a delicious and palatable, but a particularly favorite with children, and a most excellent article for family use.
